ABOUT ME

Full-Stack Developer specialized in building modern, scalable web applications using Next.js, React, and the MERN stack. Experienced in developing end-to-end solutions from responsive, conversion-focused interfaces to secure authentication systems and RESTful APIs, with a strong focus on clean architecture, performance, and user-centric design.

EDUCATION

SRM Institute of Science and Technology

June 2023 - May 2027

Bachelor of Technology in Computer Science (Specialization in Cloud Computing): CGPA 8.8

Regency Public School

Grad. March 2023

Intermediate Percentage : 88.25%

TECHNICAL SKILLS

Languages : HTML , CSS , Javascript, Typescript, Java , C , C++, Python

Frontend Technologies : Next.js , React.js, Tailwind, Redux, Zustand

Backend Technologies & Databases : Node.js, Express.js, RESTful APIs, Microservices, Redis, Kafka, PostgresSQL, MongoDB

Dev Tools : Visual Studio Code, Git, Postman, Docker, Cursor, n8n

Soft Skills : Leadership , Organisation

PROJECTS

Mystery Message - Anonymous Messaging Platform

[Live Demo](#)

[Source Code](#)

• Built an anonymous messaging app with unique shareable links using **Next.js** and **Tailwind CSS**.

• Implemented secure signup with username-based authentication and email verification.

• Developed a **privacy-first dashboard** to receive and manage anonymous messages.

Finpay – Financial Automation Web App

[Live Demo](#)

[Source Code](#)

• Built a responsive fintech landing page for automated invoicing, multi-account management, and secure payments.

• Developed with **React (Vite)** and **Tailwind CSS** using scalable, component-based architecture.

• Designed a modern, conversion-focused UI showcasing instant withdrawals and collaboration features.

n8n AI Productivity Assistant

• Built an AI-powered productivity assistant using **n8n** to track completed, pending, and remaining tasks in real time.

• Integrated Google Tasks API to enable seamless task creation and automated workflow management.

• Developed a Telegram-based conversational chatbot capable of answering queries and executing task-driven automations.
